

JOSUE RAMIREZ

Special Education Teacher who builds accessible web software - Redlands, CA • 909-705-6258 •
josue67ramirez@gmail.com josueramirez1 • <https://josueramirez1.netlify.app/> •
<https://www.linkedin.com/in/josue67ramirez/>

TECHNICAL STRENGTHS

- **Core:** TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive Design.
 - **Library/Framework:** React, React Router, Tailwind CSS, Shadcn UI, Lucide Icons.
 - **Backend & Tools:** Appwrite (BaaS), Supabase, Git, Netlify, REST APIs.
 - **Design & Accessibility:** WCAG 2.1 Standards, UX Design Patterns, Bilingual (English/Spanish).
-

TECHNICAL PROJECTS

Upscaler | Productivity & Task Management <https://josue-upscaler.netlify.app/>

- **Architecture:** Engineered a Kanban dashboard using **React** and **TypeScript**, managing complex application states for a multi-functional productivity suite.
- **Real-Time Data:** Implemented **Appwrite** to handle secure user authentication and real-time CRUD operations, enabling instant UI updates across Kanban boards.
- **Advanced UI:** Designed and coded a custom **Internal Inbox** using a **Master-Detail pattern**, optimizing the interface for high-density information display.
- **Responsiveness:** Utilized **Tailwind CSS** to ensure a seamless "mobile-to-desktop" experience, maintaining 100% functionality on all screen sizes.

SEIS | Real-Time User Interaction Suite <https://josue-seis.netlify.app/>

- **UX Engineering:** Developed an intuitive interaction flow using **React Router** for declarative routing and seamless view transitions.
 - **Backend Integration:** Leveraged **Supabase** for real-time database syncing, ensuring data persistence and low-latency performance for end-users.
 - **Accessibility:** Built with an **A11y-first approach**, utilizing semantic HTML and ARIA labels to ensure the application is usable for all individuals.
-

ADDITIONAL SKILLS

- **Bilingual Communication:** Fluent in English and Spanish; capable of technical documentation and collaboration in both languages.
- **Problem Solving:** Strong ability to debug complex asynchronous operations and state-related bottlenecks in modern web environments.

Work Experience

Options for Youth Special Education Specialist - November 2021- Present

Leading digital instruction for diverse learners, utilizing data-driven insights to customize educational pathways. Acting as a subject matter expert for educational software implementation, focusing on UI/UX accessibility for students with IEPs. Developing internal workflows and digital tracking systems to ensure 100% compliance with state-level data mandates.

Gorman Learning Center

Resource Specialist

November 2019 - October 2021

Redlands Unified (Moore Middle School) Special Education Teacher

August 2018 - November 2019

Education

Cal State San Bernardino Bachelor of Liberal Arts, 2013

National University

Master's of Science in Special Education 2018
